

# AKHIL RAMESH K

## SENIOR FULL STACK DEVELOPER

**Phone:** +91 96331 34324 | **Email:** akhilrameshk@gmail.com | **LinkedIn:** linkedin.com/in/akhil-ramesh-a0270648

**Location:** Alappuzha, Kerala, India

### PROFESSIONAL SUMMARY

Accomplished Senior Full Stack Developer with over 10 years of extensive experience architecting, building, and optimizing scalable enterprise-grade web and mobile applications. Proven expertise across the complete software development lifecycle specializing in the JavaScript/TypeScript ecosystem, including React.js, Next.js, Angular, Node.js, NestJS, and Express.js. Demonstrated track record of optimizing database performance, managing cloud deployments, and designing resilient APIs supporting 10,000+ active users. Strong collaborative leader adept at mentoring cross-functional engineering teams to accelerate delivery pipelines and enhance product quality.

### TECHNICAL EXPERTISE

**Frontend Architecture:** React.js, Next.js, Angular, TypeScript, JavaScript, HTML5, CSS3, Responsive UI/UX design, Lazy Loading, State Management

**Backend & APIs:** Node.js, NestJS, Express.js, RESTful API Design, GraphQL, WebSockets, Microservices Architecture

**Databases & Caching:** MongoDB, PostgreSQL, MySQL, Redis, Query Optimization, Database Indexing

**DevOps & Infrastructure:** Amazon Web Services (AWS), Docker, CI/CD Pipelines, Git, Vercel, Netlify

**Methodologies & Tools:** Agile/Scrum Development, Jira, Sprint Planning, Code Reviews, Team Mentorship

### PROFESSIONAL EXPERIENCE

#### Senior Full Stack Developer

Sep 2018 – Present

*Xminds Technopark, Alappuzha, Kerala (Nearly 8 years of tenure)*

- Architected, developed, and maintained 8+ production-ready, enterprise-grade applications utilizing React.js, Next.js, Node.js, and NestJS framework architectures.
- Boosted front-end core web vitals and overall application performance by 40% through strategic implementation of Server-Side Rendering (SSR), Static Site Generation (SSG), asset lazy loading, and intelligent caching patterns.
- Optimized complex MongoDB database structures, queries, and indexing strategies, successfully decreasing API response latencies by 35%.
- Seamlessly engineered and integrated 15+ complex third-party system components, enterprise workflows, and secure payment gateways, including Stripe and Razorpay.
- Led, mentored, and upskilled a high-performing team of 5+ developers, significantly enhancing sprint output efficiency, code quality baselines, and deployment stability.

#### Senior Software Engineer

Apr 2016 – Aug 2018

*Cordova Cloud Solutions, Kochi, Kerala*

- Spearheaded the development and deployment of hybrid Android and iOS mobile applications utilizing Angular, Node.js, and Apache Cordova frameworks.
- Engineered robust, highly scalable RESTful APIs utilizing Express.js and MongoDB to back real-time features and responsive interfaces.
- Expanded ongoing user engagement metrics by 25% through meticulous responsive interface enhancements, accessibility modernizations, and real-time syncing pipelines.

## Junior Developer

Jul 2015 – Mar 2016

*Achariya Techno Solutions, Alappuzha, Kerala*

- Created modular, highly responsive web-based client interfaces using core JavaScript, AngularJS, HTML5, and CSS3 styles.
- Developed a custom suite of reusable UI modules, directly mitigating software maintenance overheads and dramatically stabilizing front-end build pipelines.

## Junior Developer

Aug 2014 – Jun 2015

*Neologic, Alappuzha, Kerala*

- Contributed foundational full-stack code blocks across frontend views and backend relational data storage setups for client enterprise platforms.
- Systematically debugged production flaws and minimized cross-browser styling anomalies, preserving clean multi-device visual integrity.

## KEY PROJECTS

### Pixovo – Learning Management System (LMS)

Architected a highly scalable educational platform equipped with advanced multi-tier course configuration management tools, interactive grading rubrics, automated quiz/assignment systems, and unified e-commerce payment integrations.

### Comeonda – Interactive Gaming & Event Platform

Engineered an immersive real-time engagement engine supporting user predictions, low-latency live quiz modules, event gamification mechanics, and sub-second data synchronization loops.

### Datazoom – Enterprise Business Analytics Dashboard

Designed and built a robust executive business intelligence dashboard delivering aggregated reporting analytics, multi-dimensional metric visualizers, and data-driven workflow insights.

### Isentia – Corporate Expense & Workflow Automation System

Developed an automated organizational expense reconciliation engine managing compliance rules, financial reimbursement multi-stage workflows, and automated administrative approval hierarchies.

## EDUCATION

### B.Tech in Information Technology

2007 – 2011

*College of Engineering Poonjar, Kerala*

### Higher Secondary Education (Plus Two)

2005 – 2007

*SDV HSS, Alappuzha, Kerala*
